

A Sip Of Champagne – March/April 2010

Dancing for DASI Benefit

Dancing for DASI Show

The February 21st Dancing for DASI Show raised \$125 plus three bags of groceries for the DASI program, which will be directed to families in Sussex County that are affected by domestic violence. Veiled Visions and Ron Richardson joined the gals. Domestic abuse is so prevalent in the Sussex area, and their efforts were greatly needed.

Andrea Rizzo Dance

On Sunday, April 11th, 3:00 – 6:00 PM, The Champagne will hold their annual Dance to raise money for children with cancer to receive dance therapy for pain management through the Andrea Rizzo Foundation. Tickets, \$10, will go on sale in March.

Red Cross Telethon

On Sunday, April 18th, 6:00 – 9:00, the gals will be joining Ron Richardson for a Red Cross Telethon in East Stroudsburg, PA. The Red Cross has been more than busy these days with disaster relief in Haiti, so this will be a great opportunity to help raise funds and have fun while doing it.

Girls Just Love To Have Fun!

Luau for Doctors Without Borders

On Saturday, July 17th, 6:00 – 9:00, The Champagne Girls will hold their annual Luau, with the proceeds donated to Doctors Without Borders. (The Champagne Girls donated \$100 to the Haitian relief through Doctors Without Borders on January 15th)

Ongoing Saturday Classes for Food

The success of the “Belly Dance to Fill Bellies” program has mandated this becoming a “regular” Saturday class. Thus far, the class has donated \$200 to the Sussex County Food Pantry Co-op, and will continue to follow this as an ongoing venture. Spread the word, as it’s a “free-will” donation! (You can’t beat the price!) Help us to fill bellies! Come join us and bring a few friends.

GoodSearch Reminder

Whenever you use the GoodSearch Engine and enter The Champagne Girls as the selected charity, you’re helping us add to our donations. The GoodSearch will only forward checks greater than \$18, which we did not meet last year. Please consider *searching with a mission*, and help us make a difference.
